

# OUR "PILOT" PL DAYS

at CCS

Friday, October 10, 2025

## Learning

Facilitated Sessions for improving instructional practices in math

- K-3 Counting Principles
- Planning an effective math class, K-8
- Number Sense at the K - 2 level

## Independent work

- Review curriculum and planning tools created by province and district.
- Plan instruction using collected data and implementation guides
- Elaborate pieces of year long plans into mid range and daily lesson plans.
- View recorded sessions and asynchronous learning modules created for educators and EAs by EECD and district

## Collaboration

Small teacher groups:

- Explore data and plan for instruction and intervention
- Formulate an inquiry around a problem of practice and develop an action plan
- Co-plan learning opportunities around skill descriptors in multiple subject areas.

Teacher and EA meetings:

- Discuss student needs and student achievement
- Plan for alternate and new strategies
- Discuss upcoming learning targets and how student learning can best be supported

Drop-in sessions:

- Literacy Subject Coordinator and Lead in the library 1:00 - 3:00 pm

Articulation Sessions:

- Connecting with teachers from other District of Carleton North schools to share and reflect
