

OUR "PILOT" PL DAYS

at CCS

Friday, October 24, 2025

Learning

Facilitated Sessions:

Improving instructional practices in math

- K-2 Fact Fluency Strategies
- 3-5 Teaching Fractions Strategies

Exploring school-based data

First Aid refresher training

Independent work

- Review curriculum and planning tools created by province and district
- Plan instruction using collected data and implementation guides
- Elaborate pieces of year long plans into mid range and daily lesson plans.
- View recorded sessions and asynchronous learning modules created for educators and EAs by EECD and district
- Family touchpoints
- Continuing learning, discussion, or products from October 10th

Collaboration

Small teacher groups:

- Explore data and plan for instruction and intervention
- Co-plan with teachers of same subjects in neighboring schools
- Co-plan learning opportunities around skill descriptors in multiple subject areas.

Teacher and EA meetings:

- Discuss student needs and student achievement
- Plan for alternate and new strategies
- Discuss upcoming learning targets and how student learning can best be supported

Creating shared expectations for student success in sensory spaces

Articulation Sessions:

- Connecting with teachers from other District of Carleton North schools to share and reflect
