

# OUR "PILOT" PL DAYS

at CCS

Monday, January 26, 2026

## Learning

Facilitated Sessions:

- Using number lines in Mathematics instruction.
- Supporting students in Phys Ed classes: practices and strategies for Educational Assistants

## Collaboration

- Explore data and plan for instruction and intervention
- Co-plan with teachers of same subjects
- Discuss student needs and student achievement
- Plan for alternate and new strategies
- Discuss upcoming learning targets and how student learning can best be supported

## Independent work

- Review curriculum and planning tools created by province and district
- Plan instruction using collected data and implementation guides
- Elaborate pieces of year long plans into mid range and daily lesson plans.
- Family touchpoints
- Continuing learning, discussion, or products from previous PL days
- View recorded sessions and asynchronous learning modules created for educators and EAs by EECD and district
